## Obituary

**MARY E. WHITAKER** of Ithaca passed away on Tuesday, October 8, 2024 at the age of 94.

Mary was born in Genoa in Cayuga County on December 2, 1929, the second daughter of the late Gordon A. and Jessie (Boles) Gosbee. Mary had several different jobs during her career which all centered around her desire to interact with children. She was proud to hold the title of the first female bus driver working for the Trumansburg School District for many years. She decided to go back to school as a mature student to get her certification to work for the Head Start program in Trumansburg, however some of her best stories were from when she was a truant officer for Charles O'Dickerson High School. Mary also hosted many foster children in addition to her regular jobs and built several fond lifelong relationships with them.

Mary met her husband, Roger, while working the soda fountain at a "Five and Dime" store, Kresge's, in Ithaca. It seems Roger came in everyday as he had a keen eye on a girl behind the counter. Mary was wed to Roger in August 1948 and they celebrated 63 years of marriage before cancer took Roger.

Most of all Mary loved square dancing and together with her husband danced all over the United States including many weekly dances in Florida and New York state.

Mary is survived by her children, Ronald (Sharon) Whitaker, Gordon (Susan) Whitaker, Sharon (Lawrence) Weaver, and Robin (William) Chrysaftides; 11 grandchildren, Robert (Michelle Malta) Whitaker, Sara (Kevin) Brister, Justin (Christina) Whitaker, Eben (Christine) Whitaker, Devan (Kristin) Whitaker, Brennan (Christopher) Bush, Tara (Chris) Bubble, Todd Weaver, Tristen (Joe) Ross, Dilan (Kayleigh) Chrysaftides, and Jessica (Fred) Bergeman; many great grandchildren; and nephew, Mike Kalina. In addition to her parents, she was preceded in death by her husband, Roger in 2012; a son, Thomas Whitaker; and a sister, Elma Beeson.

A Celebration of Mary's Life will be announced at a later date. If you so choose memorial contributions can be made in Mary's name to, Jacksonville Community Methodist Church, PO Box 244, 1869 Trumansburg Rd, Jacksonville, New York 14854 or Habitat for Humanity of Tompkins and Cortland Counties, 95 Brown Rd, Suite 221, Ithaca, NY 14850.

**PETS PETS PETS**

## TICKS!!! FOR THE SAKE OF YOUR PET'S HEALTH, AND OUR HUMAN HEALTH: IT'S IMPORTANT TO PAY ATTENTION TO THESE CRITTERS AND NOT FREAK OUT!!!

**WE ARE NOT ACCEPTING NEW CLIENTS OR ADMITTING FORMER CLIENTS WHO HAVE NOT BEEN INTO THE PRACTICE IN THE LAST THREE YEARS!**

Dear readers, even though we've talked about ticks many times before, I feel it is necessary once again to go over this stuff for three reasons. First (and most important), at least in our little area of the world here in central New York State, the business of ticks has now officially become life or death serious for both our pets and ourselves. Secondly, it seems as if a lot of people either still don't know, or are simply just not paying attention to the proper way of dealing with these critters. I humbly (and with head bowed in a gesture of great respect) bring this bringing this point up because in the past when people did silly or folksy or downright stupid stuff in their quests to remove ticks from their pets (or themselves), it was sort of funny; NOW, however, with the certain establishment of lyme disease into our area, these wrong methods of dealing with these repulsive critters can lead to serious life threatening consequences. And finally, in these dark and troubled times of high unemployment, financial distress, government ineptitude, cholera in Haiti, child-soldiers in the Congo, and the human carnage in Darfur, it pains me to see people worry so much and to LITERALLY!!! freak out over these critters when just a little bit of level-headed thought would ease their pain.

And that's why I keep on trying to get this important stuff across. It seems that for every intact and living tick that a client brings in for me to remove from their cat or dog, there are another five pets brought in with the tick dead, mangled, or decapitated for me to dig it out. (Ticks, by definition, don't have heads; they have a capitulum.) I've seen ticks slathered with nail polish as well as coated with nail polish remover. I've seen ticks with their rear-ends barbecued to well-done by a cigarette, and still others that have had their butts blown-up by a burning match. I've seen them doused with mineral oil, olive oil, balsamic vinegar, kerosene, rubbing alcohol, vodka, flea spray, Tabasco sauce, gasoline, and yes, I've even seen them gobbled-up with my dastardly old friend, udder balm.

I can hear the talk out there now. "Ah, come on, Doc! Quit pickin' on us. We only did what we thought was best. Our mother-in-law/neighbor/website/guru/cousin from Arkansas all told us their method would work every single time." Most-treasured readers, I don't say this stuff to pick on you or to make fun of you, I do it because all of the methods I mentioned above are wrong. And its important to KNOW why these techniques are wrong.

By killing the tick violently with any of the above mentioned techniques, you cause them to clamp shut their mouth parts. This clenching-down reflex is the biggest reason a tick will leave it's 'head' in our pet. But more importantly, is that as the tick wiggles and writhes in its death throes because of whatever junk you applied to it, the poor little beast will expel whatever blood it has in it's guts directly into the dog or cat. Unfortunately for your pet, along with this regurgitated blood will come whatever disease organism the tick may be carrying.

I can hear it out there now: "So Doc, what is the proper way to remove a tick?" My favorite way is to part the pet's hair away as best as possible, and then grasp the tick between my thumb and forefinger as close to the point of attachment of the tick as possible, and then gently pull it straight out backwards. Unless it's a mentally-deprived tick, it will let go. A rubber or exam glove should be worn. The Centers For Disease Control says to use tweezers, but I don't think you can control your grip as well on these guys. There is also a new invention out there called a Tick Twister that seems to work good as well. I sell this device in my office and have created an award-winning video on how to use it: <http://www.squidoo.com/RemovingTicks>. (Reprinted from October 2023)

## Varick Town Board

### Accepting Statements of Interest for Available Volunteer Positions

The Varick Town Board is accepting letters of interest from Varick residents to fill the following volunteer positions:

- Comprehensive Plan Citizens' Steering Committee
- Varick Planning Board
- Varick Zoning Board of Appeals

The **Comprehensive Plan Steering Committee** will meet regularly to review the current 20 year old Plan and offer revision suggestions. A Comprehensive Plan is a "vision" for future land use in the Town and presents goals that guide official decision making to achieve the vision.

The **Varick Planning Board** meets monthly to interpret the Comprehensive Plan as it relates to the Town Zoning Code. Their work includes reviewing project construction plans and subdivision proposals. It also includes making recommendations to the Town Board on zoning updates.

The **Varick Zoning Board of Appeals (ZBA)** meets monthly to review requests from Varick residents whose projects don't fully comply with the Varick Zoning Code. This appeal process involves becoming knowledgeable about the Varick Zoning Code as it applies to land use requirements.

A background/experience/knowledge of construction, business and an understanding of legal documents is desirable.

Resumes and/or statement of interest may be submitted to:

## Mammogram is the best tool for detecting breast cancer at earliest, most treatable stage

**From Cayuga Health**

October is Breast Cancer Awareness Month and an annual reminder to get your mammogram regularly. In the United States, one in eight women will get breast cancer during their lifetime, and in New York State it is the most common cancer among women.

An annual mammogram is currently the most effective tool we have for detecting breast cancer early. Doing so dramatically improves a woman's chance of survival.

**Who should get an annual mammogram?**

The American College of Radiologists recommends starting annual screenings at age 40 for women with no known risk factors. People at high risk for breast cancer can visit a high-risk breast clinic at Cayuga Health to have your lifetime risk of breast cancer calculated.

**How can I get a mammogram?**

Cayuga Health offers mammography and imaging services at multiple locations in Montour Falls, Ithaca, and Cortland. All locations have 3D mammography, which can detect breast cancer as small as grains of salt, as well as ultrasound and MRI. You can also call 1-866-442-CANCER (2262) to find locations for breast cancer screening near you.

**What happens if something unusual shows up in my mammogram?**

Our Cayuga Health radiologists provide imaging interpretations before you leave. When the radiologist sees something new or different in the images, the mammogram changes from routine to diagnostic. You may need more imaging or even a biopsy. Our radiologists are available to talk to you in person or on the phone to address any questions or concerns during your imaging appointment.

October is Breast Cancer Awareness Month and an annual reminder to get your mammogram regularly. In New York State, breast cancer it is the most common cancer among women. Cayuga Health offers advanced mammography and imaging services at multiple locations in Montour Falls, Ithaca, and Cortland.

To make an appointment for a mammogram at Schuyler Hospital, call (607) 535-7121. In Ithaca (Cayuga Medical Center, Cayuga Park or East Campus) or Cortland (Commons Avenue) call 607-274-4227.

**DINING**

**ELECTRONIC WASTE DROP-OFF & CONFIDENTIAL DOCUMENT SHREDDING**

Saturday, October 26, 2024  
9am - Noon  
North Parking Lot—Seneca County Office Building  
1 DiPronio Drive, Waterloo

**\* USE THE NORTH ROAD ENTRANCE \***

Scan the QR code or go to our website at: [www.senecacountycce.org](http://www.senecacountycce.org) for a complete list of what can & cannot be recycled for this event.

Questions? Contact CCE Seneca at (315) 539-9251.

NO registration required. Please be sure to stay in your car. CCE staff and volunteers as well as Seneca Meadows staff will assist residents in unloading their **unwanted electronics** that will be processed by **Sunking Electronics Recycling**. In addition, **Shred-Text Document Inc. Destruction Services** will be on site to shred your unwanted **confidential documents and files**. Watch your confidential documents being shredded as you wait.

While supplies last, each vehicle will receive a bag filled with recycling and other conservation tips! There will also be a limited number of blue recycling bins available for Seneca County residents who need to replace their bin or require a second (or third) bin for their bi-weekly curbside recycling. Residents are allowed up to 8 blue bins of recycling to be picked up.

Supported by: **Seneca County and Seneca Meadows Inc.**

## Breast Health and Cancer Prevention Webinar

Take control of your breast health and explore the latest in cancer prevention.

Thursday, October 24 • 6 to 7pm

Take charge of your breast health with expert insights on prevention, early detection, and overcoming barriers to care. Hear personal stories from survivors, get the facts on common myths, and discover ways to reduce your risk through healthy lifestyle changes. Our interactive Q&A will give you a chance to ask your own questions and get the support you need.

Take the next step in your breast health journey
