JONATHON MICHAEL RILEY
October 25, 1989 — January 2, 2026
Jonathon "Jon" Riley of Enfield, New York, passed away at home unexpectedly on January 2, 2026, at the age of 36 from a pulmonary embolism.

Jon was born on October 25, 1989, in Cambridge, Maryland. From a young age, it was clear he had a rare mix of intelligence, creativity, and heart. Music was where he truly came alive—whether he was beat boxing, jamming out, or just sharing sounds he loved. He also loved the stars, long conversations, and being exactly where his people were.

Jon had an easy warmth about him. He cared deeply about everyone he crossed paths with and had a way of making people feel seen, welcome, and lighter just by being around him. He would give the shirt off his back without hesitation and had a natural gift for bringing a smile to someone's face—often when they needed it most. His humor was quick, genuine, and never forced, and his presence made ordinary moments better.

He is survived by his mother, Brenda (Worrell) Riley; his sister, Julie (Brandon) McGee; his nephew, Brantley McGee; his godparents, Jacquie and Sam Wright; his Aunt Diane and Uncle Greg Kampf; and close friends Teddy MacCarrick, Andrew Nobles, Brooks Hendrix, Karson McGill along with many other friends and family who loved him deeply.

Jon was predeceased by his father, Bill (Darius) William Riley Jr.; grandmother's Mary Worrell and Katherine Wilson; and cousin Jason Boulay.

In true Jon fashion, he would want everyone to take care of one another, keep the music playing, and keep it safe.

We are holding calling hours for Jonathon on Friday, January 16th from 4:00 - 6:00 PM at the Ness-Sibley Funeral Home in Trumansburg (23 South Street Trumansburg, NY 14886).

**THE IDITAROD: SOME INTERESTING
FACTS ABOUT THIS HISTORIC RACE.****WE ARE NOT ACCEPTING NEW CLIENTS OR ADMITTING FORMER CLIENTS
WHO HAVE NOT BEEN INTO THE PRACTICE IN THE LAST THREE YEARS!**

(Reprint) As I write this article on a dreary, rainy Monday March morning, dog sled mushers and their teams of huskies are beginning the third day of Alaska's 37th Annual Iditarod. The race, which pits man and dog against raw mother nature in all of her splendid majesty and brutal, unforgiving fury, is considered by many to be truly "The Last Great Race on Earth." In honor of this historic event, my wife suggested I forgo my usual worn out blather about rabies shots and worming and ticks and fleas etc., and share a few of the things I know about the Iditarod.

The annual Iditarod race takes place between the Alaskan cities of Anchorage and Nome. This year's race has 67 teams, with each team consisting of 12 - 16 dogs and their sled driver (mushers.) The southern route of the Iditarod Trail being run this year is 1131 miles long. The trail is divided into 27 checkpoints and the race is expected to take between 10 and 17 days.

Although the Iditarod Trail had been used by Native American peoples for hundreds of years before the arrival of Russian settlers in the 1800's, the present day race actually commemorates a fairly recent event. In early 1925, a deadly diphtheria outbreak occurred in the northern Bering Sea coastal city of Nome. On February 2 of that year, a musher named Gunnar Kaasen and his team of huskies guided by his lead dog, Balto, became the first of several lifesaving missions to deliver diphtheria antitoxin to the disease-stricken city. (As a point of interest, in Central Park in the great city of New York, there is supposed to be a bronze statue of Balto—which I have not seen— inscribed as follows: "Dedicated to the indomitable spirit of the sled dogs that relayed antitoxin six hundred miles over rough ice, across treacherous waters, through Arctic blizzards from Nenana to the relief of a stricken Nome in the winter of 1925. Endurance—fidelity—intelligence."

The fastest time for completing the race was set in 2002 by a musher named Martin Buser and his lead dog named Bronson. The time was 8 days, 22 hours, 46 minutes, and two seconds. A prize called The Red Lantern Award is bestowed every year upon the last place finisher. The record time for this prize was set in 1973 was 32 days, 15 hours, 9 minutes and 1 second.

The first official Iditarod Trail Race was run in 1973. Prior to this, sled dog racing had a long and popular history within the state. One of the more popular of these races was called the All-Alaska Sweepstakes. It was at this event in 1910 that saw the introduction of the first Siberian husky dog to Alaska. Prior to this, the primary breed used was the Alaskan malamute.

The word "husky" takes its name from the derogatory term "Eskie" which was used to refer to all of the Native Eskimo peoples living all over the Arctic. The word "Siberian" refers to the land of Siberia, presently Northeastern Russia. It is believed by some archeologists that the predecessors of the modern Siberian husky breed helped the early settlers of our continent crossover the land bridge formed between North America and Asia during the last ice age.

Finally, and this is something I had to look up this morning on Wikipedia, the term mushing refers to any form of transport that's powered by dogs. It is believed that the term has as its origin the French word "marche" which means to go or to run. A person who directs this form of transport is a "musher." Although I'm told that the command is seldom used in proper dogsledding circles anymore, children of all ages will forever remember the endearing word "mush" as bellowed out by old Yukon Cornelius in the Christmas movie classic, Rudolph the Red-Nosed Reindeer as he tried, mostly unsuccessfully, to get his unruly team of sled dogs to move.

Tailoring Medical Weight Loss to Your Body at Centralus Health's New Clinic

A lifestyle filled with good nutrition, regular physical activity, stress management, and enough sleep supports a healthy weight, but finding a regimen that works can be tough. Taylor Bellinger, Family Medicine and Weight Loss Management Physician Assistant at Arnot Health, a Member of Centralus Health, works with patients to find a sustainable weight loss plan.

The Arnot Health bariatric care team works with patients to achieve a healthier lifestyle.

Practitioner at Cayuga Health, a member of Centralus Health.

By focusing on a goal that's meaningful, patients are more likely to reach the outcome they're looking for. When they do, Taylor

can't help but notice a change in their demeanor.

"This job is rewarding because we're working on weight. When that gets better, people's confidence improves and their quality of life improves. That's really exciting for patients."

People who qualify for medical weight loss assistance should talk to their primary care provider about a referral.

The Arnot Health bariatric care team works with patients to achieve a healthier lifestyle. Arnot Health's Weight Loss Clinic is located at the Southport office, 1138 Broadway Street, Elmira.

Cayuga Health provides proper educational resources, one-on-one counseling, complete medical exams and testing, and continued support throughout a patient's weight loss journey. Cayuga Health's Center for Metabolic and Bariatric Surgery is located at 310 Taughannock Boulevard, Ithaca.
